

Upcycled Plates

What you need:

- old plates
- Pebeo porcelain paints
- Paint brushes
- Water jars
- Tape, stencils, cut off images... (magazines)
- oven

How to make it

- Find plates at a thrift store. They can have a design on them or not, it's up to you.
- Decide on how you would like to alter the plate. Free painting, use a stencil...
- If you would like to use an image, look through a magazine and cut out an image you like. Place your image on the plate and paint around it, like a stencil.
- Follow the instructions on the Pebeo porcelain paints on how to "cook" your plate. This paint will stay on your plate and it is food safe!
